

Basel Al-Raoush

Full-Stack Software Engineer | React, TypeScript, Java, Node.js

alraoushb@gmail.com | +36 70 349 9665 | linkedin.com/in/basel-al-raoush | github.com/Al-RaoushBasel | Portfolio

Budapest, Hungary | Available immediately | Open to relocation

Computer Science Engineering graduate (BME, 2026) who builds full-stack web apps with React and TypeScript on Spring Boot or Node.js backends. Internship experience at Bank of Jordan, ABBYY and a banking software company. Available to start immediately.

EXPERIENCE

Student Software Engineer

Oct 2025 – Dec 2025

ABBYY · Budapest, Hungary

- Wrote Python scripts that process extracted document data and move it between systems, for example invoice data from ABBYY FlexiCapture into ERP systems.
- Debugged encoding and parsing issues in the OCR pipeline, including a client-reported bug traced to an encoding mismatch.
- Worked in a large, mature codebase through code reviews and collaboration with other teams.

Software Engineer Intern

Aug 2025 – Sep 2025

Bank of Jordan (Mihnati Program) · Amman, Jordan

- Built and tested Java/Spring Boot features for microservices that went into production.
- Fixed bugs across **2 microservices** and wrote JUnit tests to the team's coverage standard.

Freelance Mobile Developer

Jul 2025 – Feb 2026

5 Stars Saloon (barber booking app) · Remote | [Google Play](#)

- Built a Flutter + Firebase booking app for a barber shop, now live on Google Play with **100+ downloads**.
- Added online payments, booking reminders and live status updates (Firebase Cloud Messaging), with Riverpod for state.
- Role-based access for customers, barbers and the owner; bilingual (English and Arabic) with phone verification.

Software Engineer Intern

Aug 2024 – Sep 2024

Inspire for Solutions Development · Amman, Jordan

- Built React.js UI components for banking web apps, following the bank's design system (HTML, CSS, JavaScript).
- Wrote Python scripts to automate repetitive data processing for the team.
- Helped configure CI/CD pipelines in GitHub Actions and Jenkins.

SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL, HTML, CSS

Frontend: React, Redux, Responsive UI, Flutter

Backend: Node.js, Spring Boot, REST APIs, Microservices, JUnit, Unit Testing

Databases: PostgreSQL, MongoDB, MySQL, Firebase

Cloud & DevOps: Docker, CI/CD (GitHub Actions, Jenkins), Git, Linux, AWS (learning)

Data & AI: ETL / Data Pipelines, LLMs, RAG, Prompt Engineering, Machine Learning, Pandas, scikit-learn

Practices: Agile/Scrum, OOP & Design Patterns, Data Structures & Algorithms, Code Review

PROJECTS

TenantHub [React](#), [Node.js](#), [MongoDB](#), [Redux](#) | [Live Demo](#)

Full-stack property management app with tenant portals, lease tracking and payments. Redux keeps admin dashboards in sync with live data.

SentimentTrader [React](#), [Spring Boot](#), [Python](#), [FinBERT](#), [PostgreSQL](#), [Docker](#) | [GitHub](#)

Paper-trading platform with a **\$100K** virtual balance and live market data over a Finnhub WebSocket. A FinBERT NLP service scores financial news as bullish or bearish. The Spring Boot backend uses pessimistic locking, idempotency keys, circuit breakers and JWT auth with refresh tokens.

Digit Recognition [Python](#), [TensorFlow/Keras](#), [Flask](#) | [Live Demo](#)

Handwritten-digit classifier using a MobileNetV2 CNN with transfer learning (**95%** accuracy), served through a tested Flask API.

Signature Forgery Detection [Python](#), [scikit-learn](#), [XGBoost](#) | [GitHub](#)

Python pipelines that turn pen coordinate and pressure data into features. Trained and compared SVM, Random Forest, XGBoost and MLP models, reaching **over 90%** accuracy.

EDUCATION

BSc in Computer Science Engineering

Jul 2026

[Budapest University of Technology and Economics \(BME\)](#) · Budapest, Hungary

- Stipendium Hungaricum scholarship recipient. GitHub Foundations certification (2025).

Languages: English (fluent), Arabic (native), German (A1), Hungarian (basic)

Volunteering: GDSC BME tech team (TypeScript Discord bot and web analytics tool); TEDxBME IT team (event website).
